# International Protection: June 2025

# Executive Summary

The figures in this dashboard were extracted on the 04<sup>th</sup> July 2025. These are operational figures and subject to change. The charts below refer to key points in the asylum process. A flow chart is provided at the end of the pack that sets out this process. Overall, for June 2025:

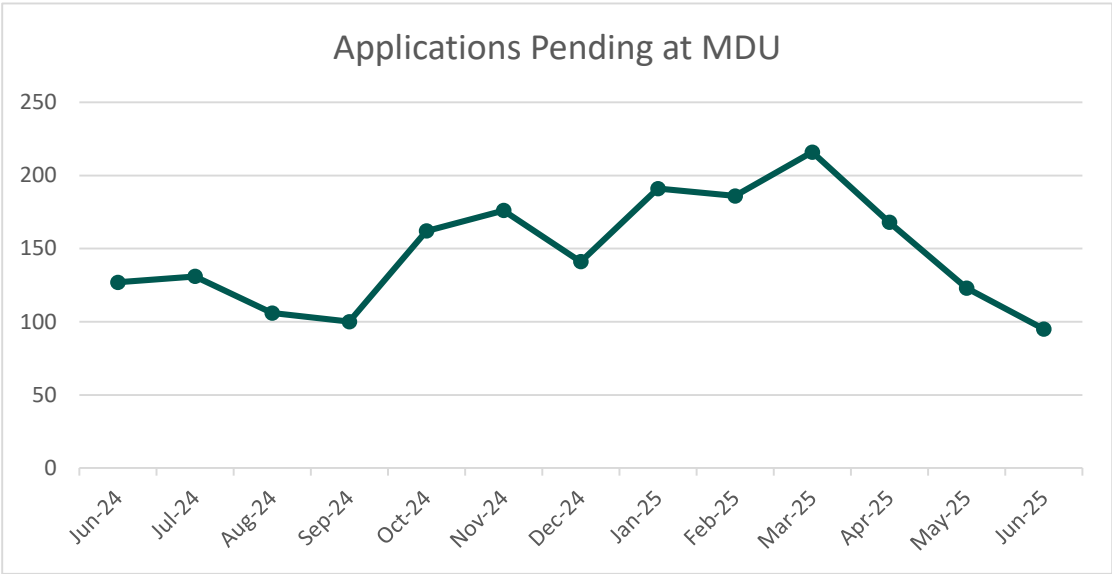

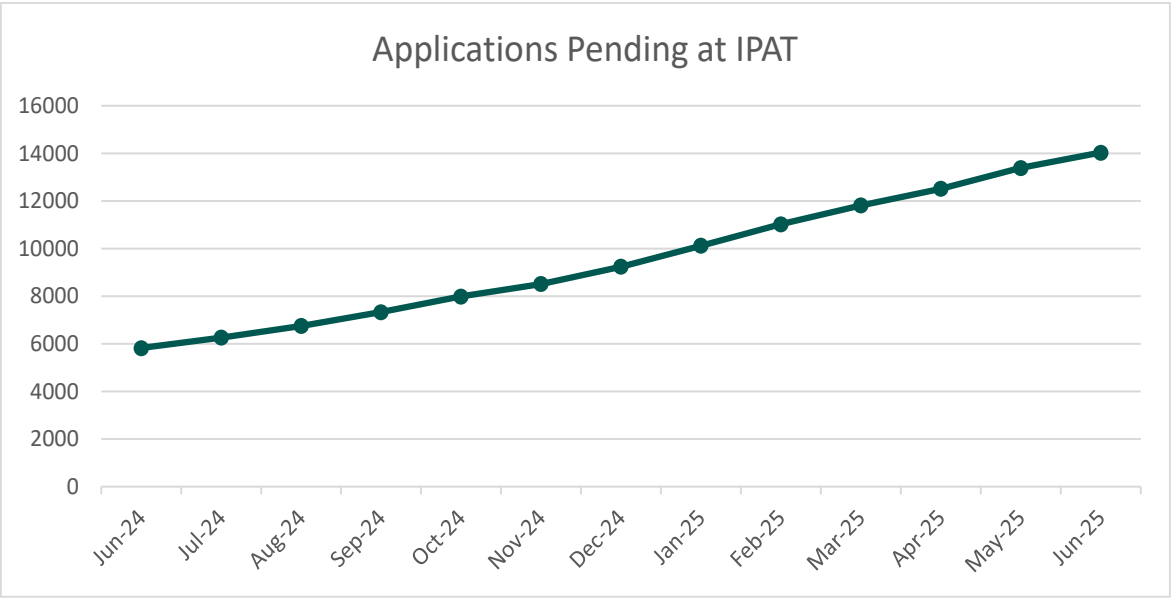

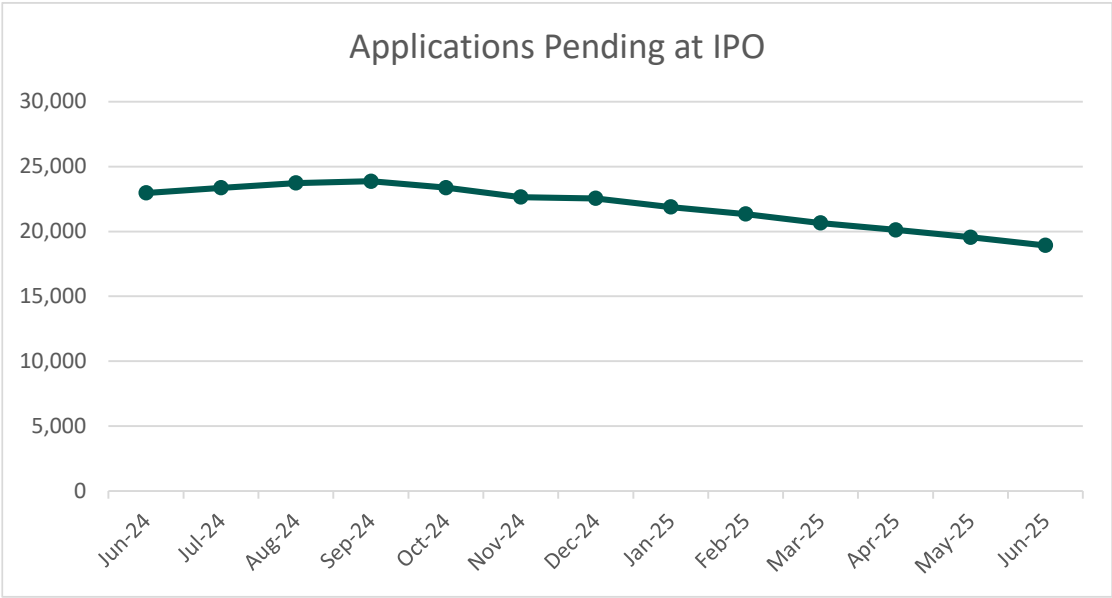

- Compared to last year, the number of asylum applications has dropped significantly. In June 2025 there were 1,001 applications compared to 1,404 in June 2024. So far this year, through June, the total number of applications has dropped from 10,597 down to 6,040, a reduction of 43%
- The main countries of origin for 2025 are: Nigeria (926 applications), Pakistan (776), Somalia (745), Afghanistan (673) and Georgia (392)
- The number of applications pending in the IPO has been reducing since the end of September 2024, when it stood at 23,863. As of June this year, there were 18,923 applications pending
- Compared to last year, there has been an increase in the number of applications where the IPO made a recommendation or otherwise closed off a case. In June 2025, 1,577 cases were closed off compared to 849 in June 2024
- The median time to make a decision for standard cases is still trending slightly downwards. In June 2025, the median processing time to determination was 71 weeks (compared to 81 weeks in November 2024 and 74 weeks in February 2025)
- The number of staff in the IPO has reduced slightly, 600 at the end of June 2025
- Of those applications where a final decision was made in June 2025 (for example, after the outcomes of appeals were considered), 45% of decisions were refusals, 4% permission to remain, and 51% were international protection grants

# Applications and Main Nationalities

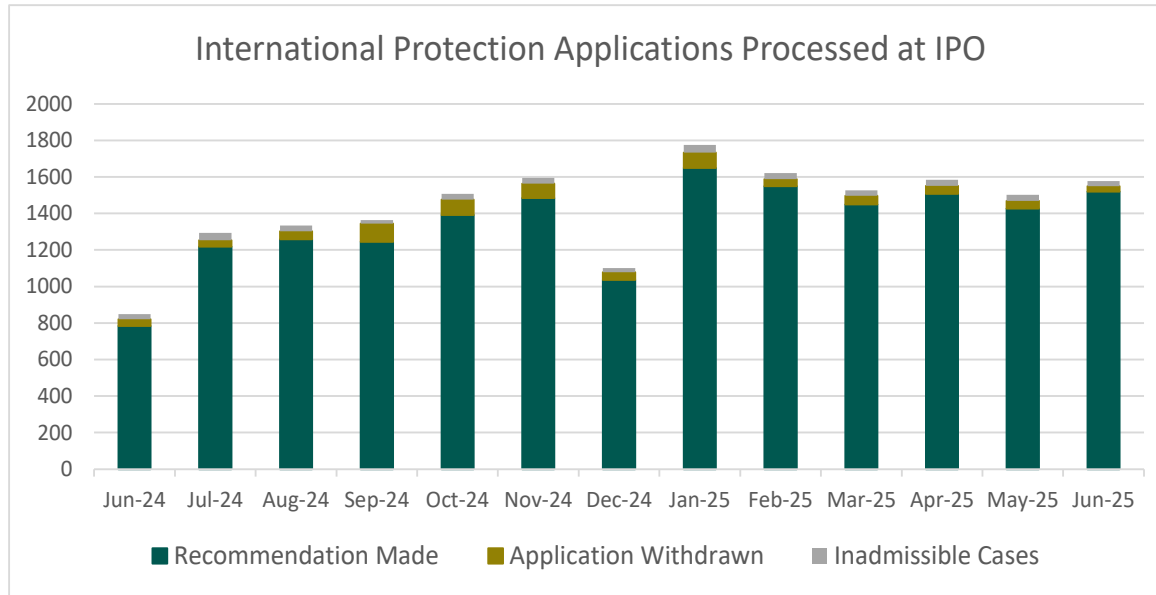

- In June there were 1,001 applications received for asylum. This is down from 1,404 last June
- The total number of applications in June 2025 that fell under accelerated procedure was 285 (which represents 28% of all applicants)
- The main countries of origin for 2025 are: Nigeria (926 applications), Pakistan (776), Somalia (745), Afghanistan (673) and Georgia (392)

# Pending International Protection Applications

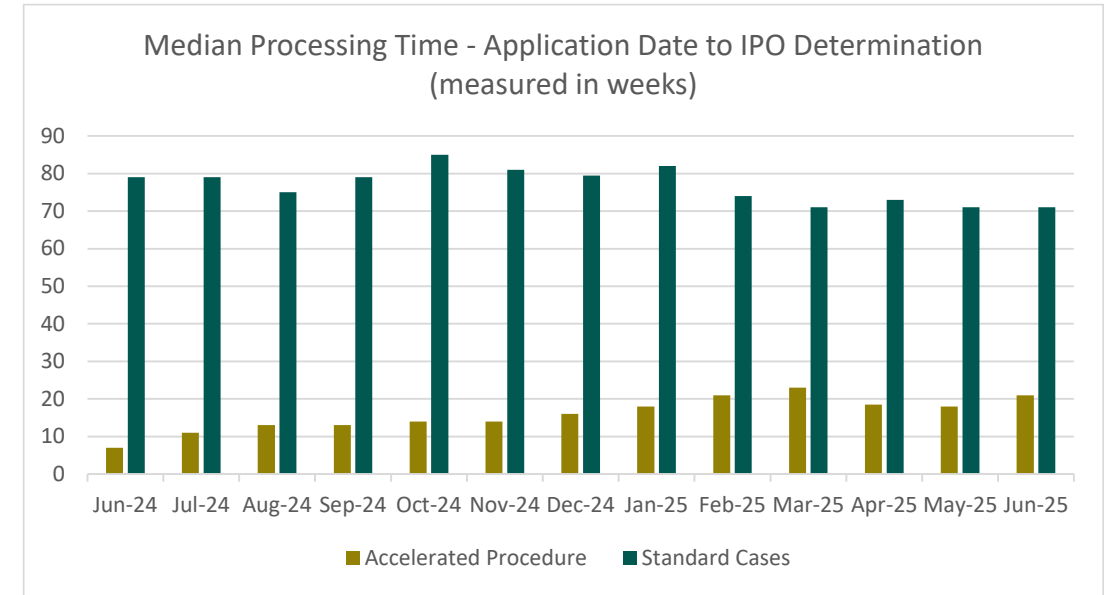

- The number of applications pending in the IPO is 18,923. The numbers have begun to reduce since the end of September 2024
- The number of pending applications for IPAT has been trending upwards. In June 2025, there were 14,035 applications pending
- The pending figure for MDU at the end of June 2025 is 95

# International Protection: Applications Processed and Median Processing Time

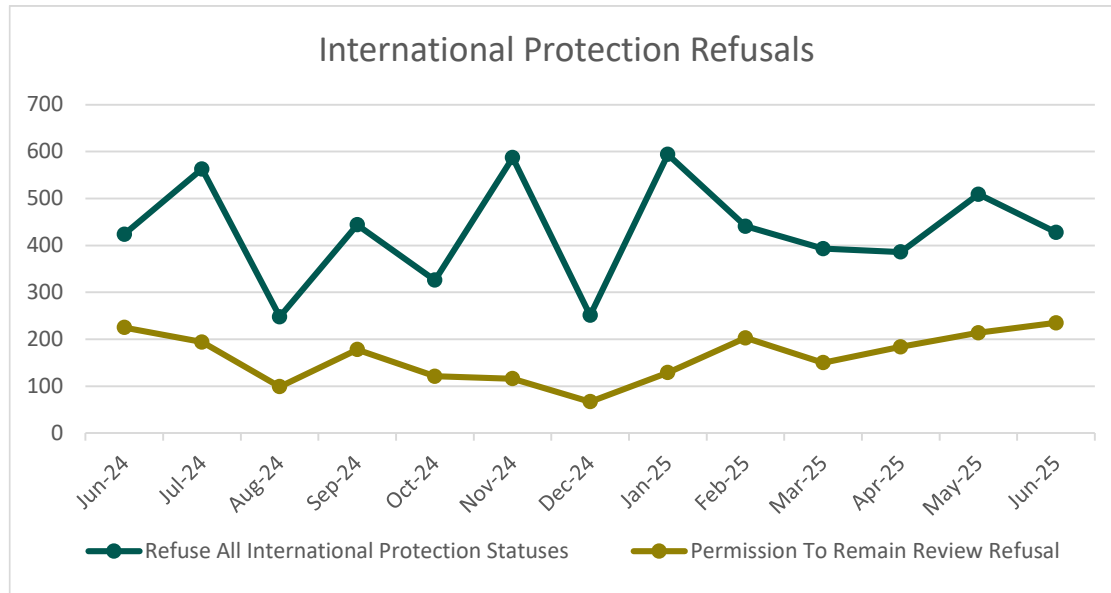

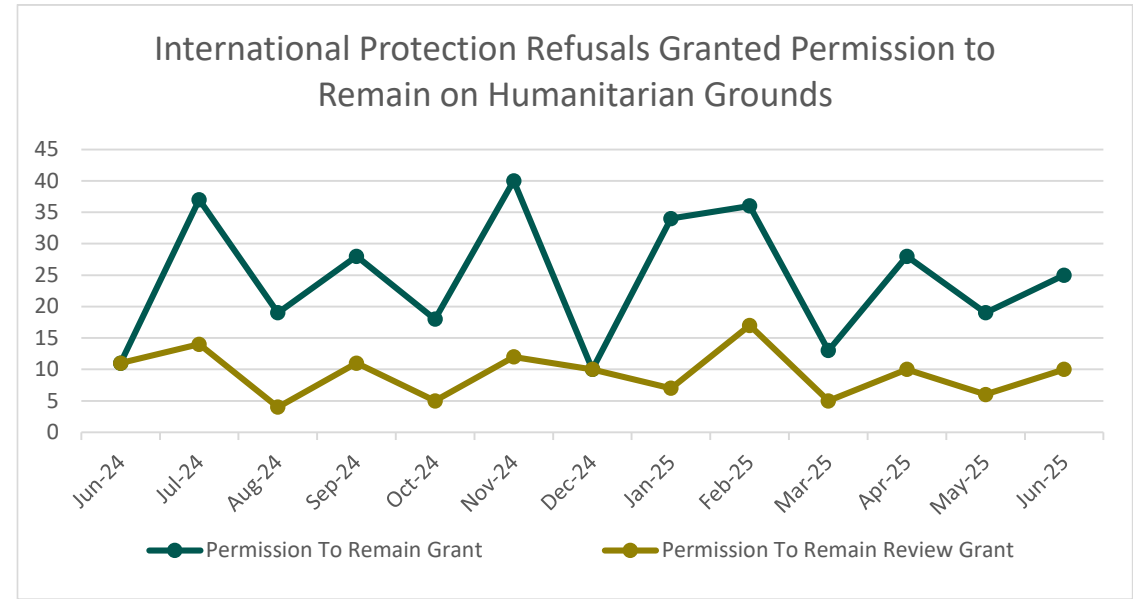

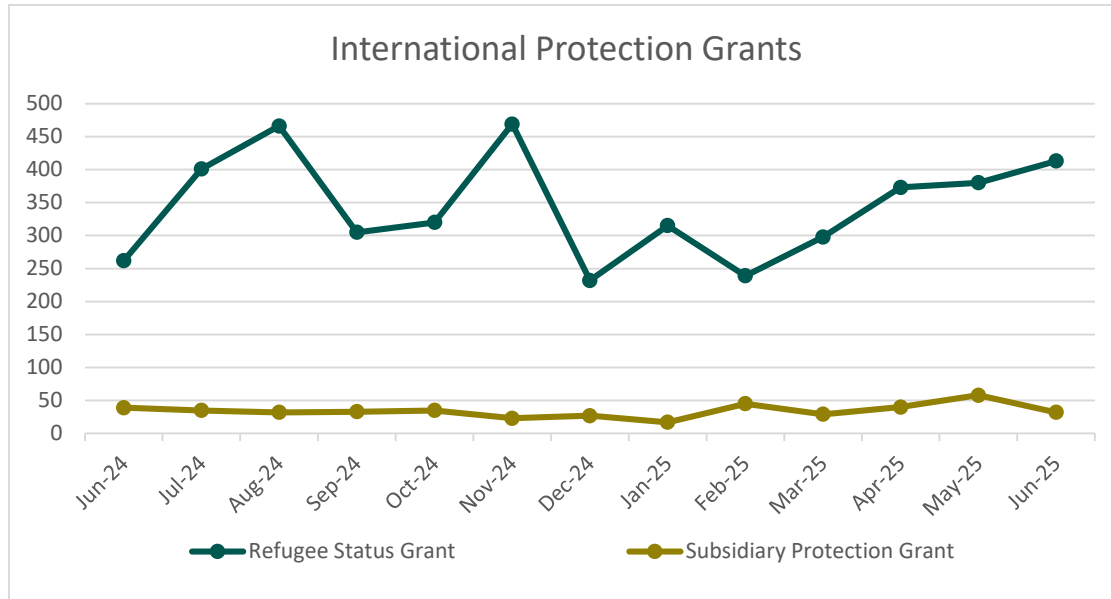

- This table is counting Recommendations Made, Applications Deemed Inadmissible and Applications Withdrawn
- In June 2025, 1,577 cases were closed off. This is down from 1,584 in April but up from 1502 in May
- 2025 YTD applications processed were 9,587 (a 61.8% increase on 5,924 applications processed for 2024 YTD)

- The median processing time to determining an outcome to an asylum application had been slowly decreasing since October 2024 for Standard Cases. There was a slight increase for cases under the Accelerated Procedure between May and June 2025
- In June 2025, the median processing time to determination for standard cases was 71 weeks (the same as for March and down from 73 weeks for April)
- For accelerated procedure only, the median processing time was 21 weeks in June 2025, down from 23 weeks in March

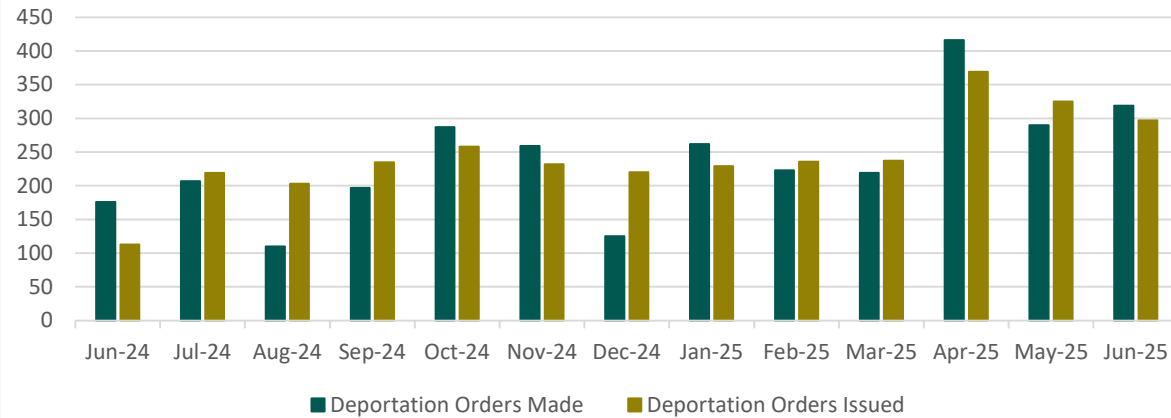

# International Protection Decisions – Granted and Refused

- In June 2025, of those applications where a final decision was made (for example, after taking into account appeals), 413 were given refugee status grant and 32 subsidiary protection grant (445 in total). There is significant variation in these decisions over the last few months with no clear trend
- Of those who were refused refugee status and subsidiary protection, 25 were given Permission to Remain on humanitarian grounds with 10 on a Permission to Remain Review Grant. There is significant variation in these decisions over the last few months with no clear trend
- There were 428 refusals for International Protection Statuses and 235 for Permission to Remain Review
- Overall, for June 2025, 45% of decisions were refusals, 4% permission to remain, and 51% were international protection grants

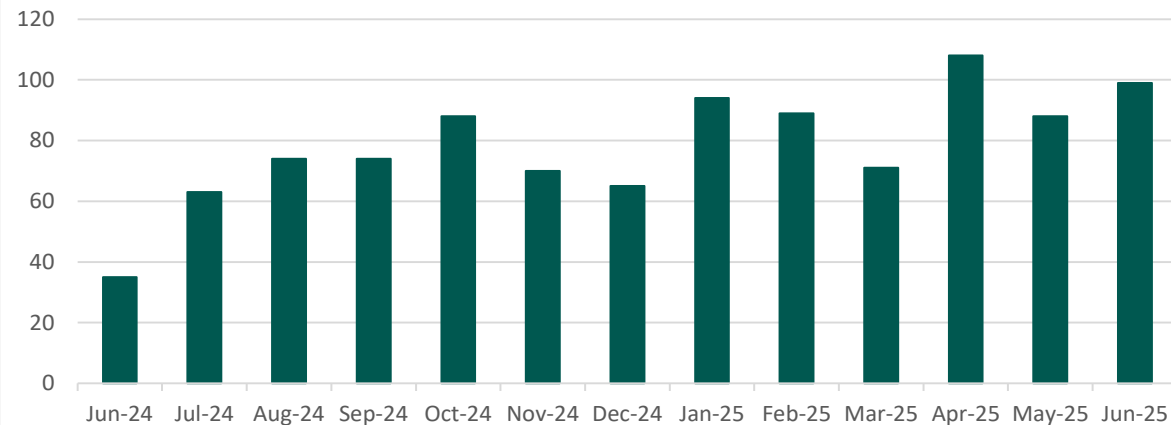

# Deportation Orders and Enforcement/Removals

Deportation Orders where person had a previous International Protection application

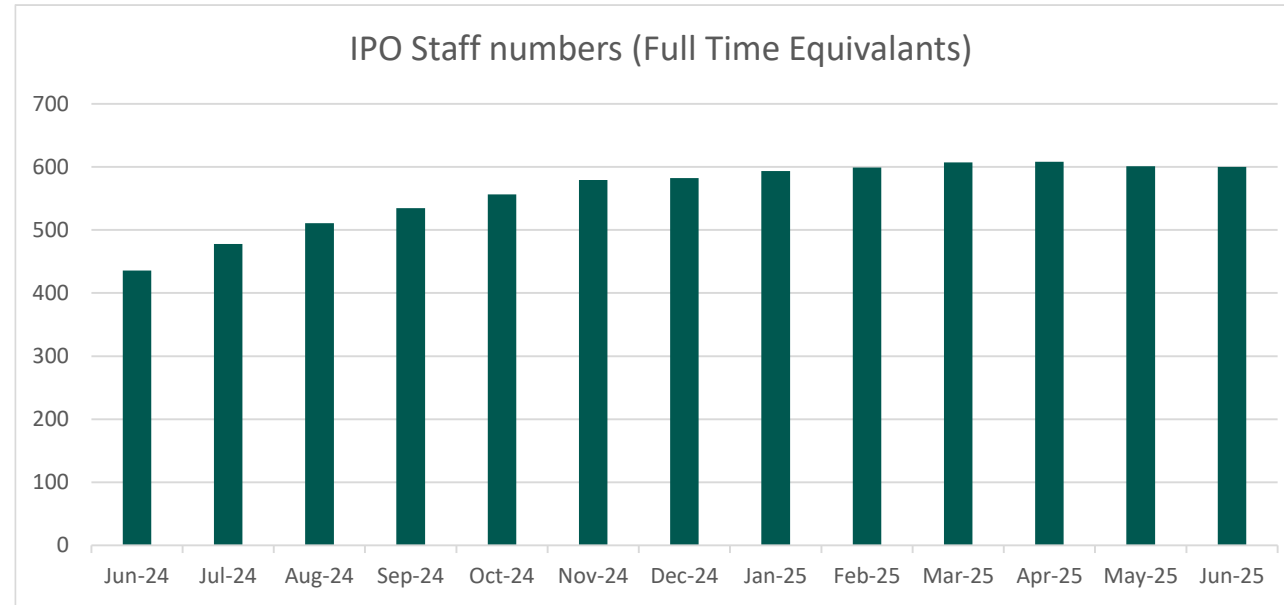

- For June 2025 the number of deportation orders made/signed (where a person had a previous asylum application) was 319 and the number of deportation orders issued was 297. For May, the figures were 290 and 325 and for April, the figures were 416 and 369, respectively
- For June 2025 the number of removals was 99

Enforcements and Returns where person had a previous International Protection application

# IPO Staff number (Full-Time Equivalents)

- The number of staff in the IPO has started levelling off
- In June 2024 there were 436 FTEs in IPO. This number has been slowly trending upwards, to 582 in December 2024 and 607 in March 2025
- At the end of June 2025, the IPO had 600 FTE staff

# Appendix

# Methodology

## Pending International Protection Applications

- IPO – Data sourced from Lotus Notes
- IPAT – Data sourced from Lotus Notes
- MDU – Data sourced from AISIP. Pending figure does not include legacy cases – the legacy data has been captured in such a way that it cannot be accurately reported on

## International Protection: Interviews and Applications Processed

- Data sourced from Lotus Notes

## International Protection Applications Processing Times

- Data sourced from Lotus Notes
- Applicants to whom section 38(5) of the International Protection Act 2015 applies (failure to co-operate) are included in the calculations
- Where an interview took place after a case was reactivated the reactivation date is used as the application date, otherwise the original application date was used for the processing time calculation
- The median calculation is used for processing time at IPO as there are significant outliers in the length of time asylum applications can spend in processing. This is typically due to lengthy procedures such as judicial reviews which are complex and time consuming by their nature, and which are also outside of the remit and control of the IPO during that part of the process. The median is a more accurate measure of the time spent by the IPO in processing applications.

# Methodology

## International Protection Decisions – Granted and Refused

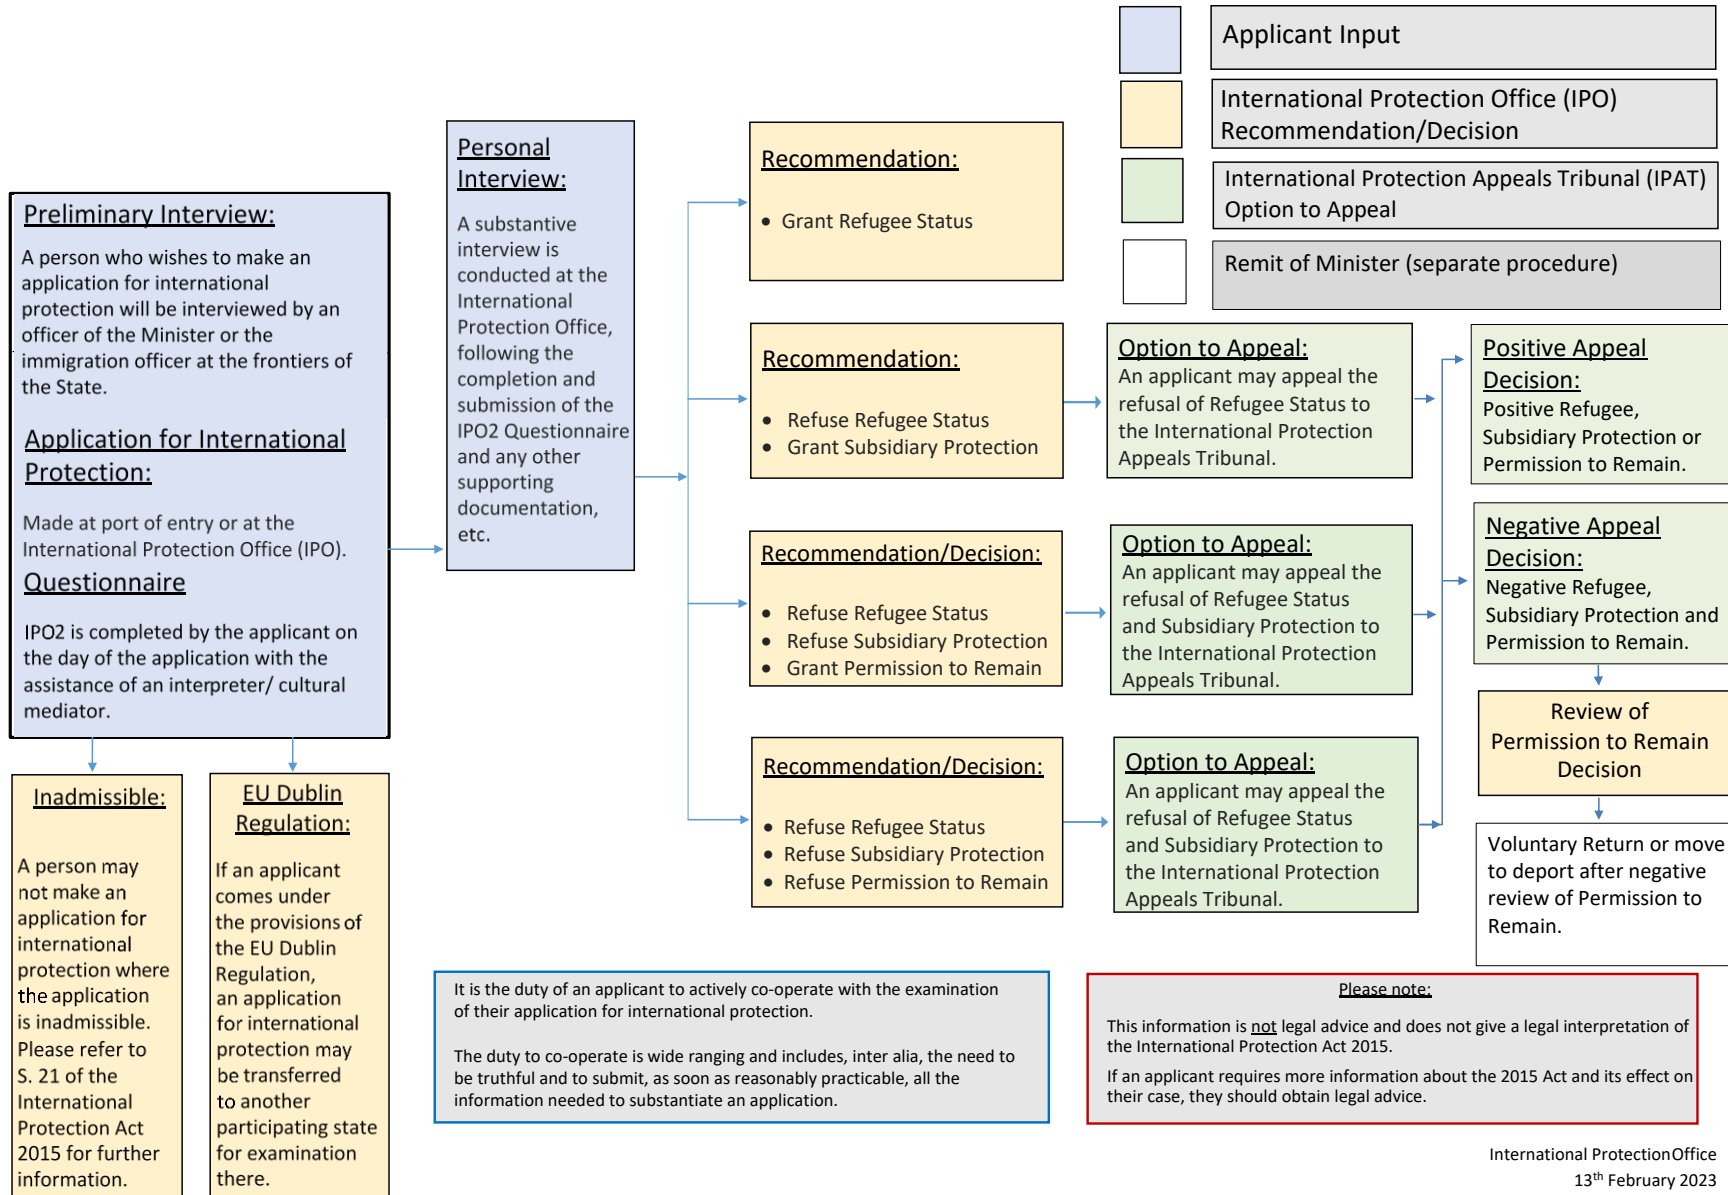

- Quashed decisions and Revocation of Status are not included
- Decision figures include international protection decisions (IPDN) and legacy application types
- Each applicant is represented once in the granted and refused tables
  - For example, if a person is refused refugee status but is granted subsidiary protection they are recorded once in the tables as a subsidiary protection grant. This is to more clearly represent the overall numbers of granted and refused applicants, and to avoid double counting of individuals where they are refused one type of status but are granted another.
- Some of the applicants who have been granted permission to remain are also included in the 'Refuse All International Protection Statuses' category of the refusals table. Permission to remain is a humanitarian permission. In order to be considered for permission to remain you must first have been refused international protection. On slide 7, the 'International Protection Refusals Granted Permission to Remain on Humanitarian Grounds' chart is a combination of applicants still in the asylum process and applicants who have finished the process. The 'International Protection Refusals' chart includes only those applicants who have finished the asylum process.
- Where a revocation occurs the original grant is removed from the figures for the month the permission was originally granted. For example, if an application was granted in January but subsequently revoked later in the year the January figure is updated to remove the grant

## Deportation Orders and Enforcement/Removals

- Data for the International Protection Deportation Order (IPDP) application type is sourced from AISIP. All other data is sourced from Lotus Notes
